Objectives

Aspiring Full Stack Java & React Developer with proficiency in Spring Boot, Hibernate, and MySQL. Passionate about developing efficient, scalable web applications and eager to apply my technical skills in a dynamic environment. Seeking an opportunity to contribute my coding expertise while continuously learning and growing as a software developer.

Education

- | | |
|---|--------------------------------|
| Kanpur University
<i>BSC in Maths & Science</i> <ul style="list-style-type: none">Percentage: 61.67 | <i>Sept 2018 – May 2021</i> |
| SS Sansthan
<i>Intermediate (12th)</i> <ul style="list-style-type: none">Percentage: 56.6 | <i>April 2016 – March 2018</i> |
| Singhania Educational Institutions
<i>High School (10th)</i> <ul style="list-style-type: none">Percentage: 79.8 | <i>April 2015 – March 2016</i> |

Experience

- | | |
|--|---|
| Software Engineer Intern
<i>CETPA INFOTECH</i> <ul style="list-style-type: none">Developed hands-on projects using Java, Spring Boot, Hibernate, MySQL, React JSGained expertise in backend development, handling databases, and integrating frontend with APIs.Created a Bank Management System project using JDBC and JFrame.CRUD applications built with Spring Boot and MySQL.Learned software development best practices, debugging, and deployment techniques. | <i>Lucknow, UP</i>
<i>Aug 2023 – Aug 2024</i> |
| Technical Recruiter
<i>Vbeyond Corporation</i> <ul style="list-style-type: none">Collaborated with IT teams to understand technical requirements and sourced candidates for software development roles.Conducted technical screenings, building familiarity with programming languages and development methodologies.Managed recruitment processes, enhancing my project management and communication skills. | <i>Lucknow, UP</i>
<i>Aug 2022 – June 2023</i> |

Projects

- | | |
|--|---|
| Employee Management System <ul style="list-style-type: none">Developed a full-stack CRUD application using React for the frontend and Spring Boot for the backend. Designed RESTful APIs for seamless data exchange and integrated Hibernate for database operations. Implemented user-friendly UI with React and ensured secure data handling with proper validations. Tested API functionality using Postman for robust performance.Tools Used: Spring Tool Suite, VSCode, POSTMAN, MYSQL Workbench, Maven, Node Package Manager | github.com/link  |
|--|---|

Bank Management System

[github.com/link](#) 

- Developed a desktop-based banking application using Java, JDBC, JFrame (Swing), and MySQL. The system allows users to perform essential banking operations such as account creation, secure login authentication, cash withdrawal, fast cash transactions, mini statement generation, and PIN change. It features real-time transaction processing and database integration to ensure accurate data storage and retrieval. This project demonstrates expertise in Java programming, GUI development, and database management while implementing real-world financial operations.
- Tools Used: Netbeans, MYSQL Workbench, Maven, Swing

Employee Time Tracker

[github.com/link](#) 

- The Employee Time Tracker is a Spring MVC 5 application designed to efficiently manage employee attendance. It allows users to record check-in and check-out times, ensuring accurate tracking. The app integrates with a database for data management and offers easy password updates through the Spring XML configuration.
- Tools Used: Eclipse, MySQL, Hibernate

Technologies

Languages: Java, SQL, JavaScript, HTML, CSS

Technologies: React.js, REST API, SpringBoot, Hibernate, JDBC, Servlets, JSP, Redux, Bootstrap, MySQL

Certifications

CETPA INFOTECH : Java Full Stack Development
